Git, Bitbucket, GitLab

Languages

English - C1

Spanish - Native

German - Basic

👤 About me

I started in the IT field creating simple scripts and bachs, simply for fun. After that, I earned my Higher National Diploma of Web App Development in Madrid, which did nothing but make me feel more caught up by the whole world of programming: it's pretty stimulating the idea that there is always a way to do anything!

💼 Work Experience

Dachser
01/2024 - Now
- Software Developer

Madrid, Spain

Working on several projects such as managing high rack automation using JMS by Spring or using Azure functions and triggers to make some machines work on demand.
